A large tree, its massive trunk splintered and roots partially uprooted, has fallen across a residential house. The branches have shattered windows and torn through the roof, causing significant structural damage. The weight of the tree has crushed one side of the house, leaving the walls cracked and the roof caved in. Debris is scattered across the yard, and the house is now partially buried under the tangled mass of leaves, branches, and broken wood. The scene is one of chaos, with the tree looming over the damaged home.

A large tree, its massive trunk splintered and roots partially uprooted, has fallen across a residential house. The branches have shattered windows and torn through the roof, causing significant structural damage. The weight of the tree has crushed one side of the house, leaving the walls cracked and the roof caved in. Debris is scattered across the yard, and the house is now partially buried under the tangled mass of leaves, branches, and broken wood. The scene is one of chaos, with the tree looming over the damaged home, emphasizing the sheer force of nature.

The wooden structure of the house shows clear signs of decay, with the once sturdy beams now soft and crumbling to the touch. The wood has darkened in color, with patches of mold and mildew spreading across the surface. In some areas, the wood is visibly warped and cracked, with sections flaking off and disintegrating into dust. The corners and edges of the wooden planks
