

SIT773 Software Requirements and Analysis

Pass Task 2.1: Week 2 Quiz

Overview

Each week we introduce you to a range of terminologies, techniques, and practices related to software requirements analysis and modeling. These quizzes give you a chance to demonstrate your understanding of this basic terminology.

Submission Details

Submit the following files to OnTrack:

- A screen shot of the page at weekly resources, CloudDeakin with your quiz results, showing your login at the top right.

Instructions

For this task you need to undertake the week 2 quiz by the end of week 2. You can have multiple attempts at each question, but you need to get all the questions correct.
