Text holds a row, with the text assigned to 7 column units col-sm-7 and the image isassigned to col-sm-5, alowing the text and images to span 5 and 7 column units respectively on screns greater than 576px units, Added to each of these two columns is the col-12, which says when the screen is smaler than 576px, it will then use all 12 columns grids for each image and text, aowing them to be stacked on top of each other.

Sun Hats by **Adiran Siaril**

Here, the class img-fluid rounded has been applied to the image. The title above uses <p class="lead"> to make the text standout, While this text uses the <p class="small"> to distinguishit from the normal paragraphs.

Baseball Cpas by **Shlok Jethwa**

Another picture showing the diverse range of colours and styles that baseball caps come in. Herethe class img-fluid rounded-pill applied to it.

Summary

This then concludes the content in the main section of the page. Note that the end of each content block is a hyperink back to the **Top** of the page. It uses the <p class="text-end"> to align to the right of the screen.

The next and final section is the footer which uses div styled with the class container-fluid p-2 bg-dark text-white to align the paragraph text in centre of the container.
